(LISTED BELOW)

DATE OF INFO [REDACTED]

SUPPLEMENT TO
REPORT NO.

25X1X6

1. The British have recently concluded an agreement with the Yugoslav Government for an unspecified amount of bauxite to be shipped from Sibenik. The bauxite will be exchanged for mining machinery to be purchased by the British from a New York company.
2. The alumina capacity in Yugoslavia is three times the pre-war average. Currently, however, transportation of ore from mines to ports and processing plants is the most critical bottleneck.
